COMPETENCY FRAMEWORK

ANNEXURE "B"

The Core Competency Requirements (CCRs) account for the remaining 20% of the employee's assessment score.

The competency framework includes the Critical Leading Competencies and Core Competencies as per Local Government: Regulation on the Appointment and Conditions of Employment of Senior Managers which came into operation on 17 January 2014 (LG: MSA 32/2000, Nr. 21, Gazette nr. 37245).

A person appointed as a senior manager must have the competencies as set out in the Competency Framework. Focus must be placed on the following key factors:

- a. **Critical Leading Competencies** that drive the strategic intent and direction of local government. The competency framework consists of six (6) leading competencies which comprise of twenty (20) driving competencies that communicate what is expected for effective performance in local government.
- b. **Core Competencies** which senior managers are expected to possess and which drive the execution of the leading competencies. The competency framework involves six (6) core competencies that are drivers to ensure that the leading competencies are executed at an optimal level.
- c. The eight (8) **Batho Pele** Principles.

There is no hierarchical connotation to the structure and all competencies are essential to the role of a senior manager to influence high performance. All competencies must therefore be considered as measurable and critical in assessing the level of a senior manager's performance.

Achievement levels indicated in the table below also serve as a benchmark for appointments, succession planning and development interventions.

Rating level 1 was added to be in line with the Rating Calculator using a 5-point scale in terms of Regulation 805 for individual performance assessment purposes.

Refer to Achievement Levels criteria of each competency as per competency framework's competency descriptions under separate cover (pages 26-37):

Rating	Achievement Levels	Description
1	Unacceptable	Performance does not meet the standard expected. Requires supervised and development intervention.
2	Basic	Applies to basic concepts, methods and understanding of local government operations, but requires supervision and development intervention
3	Competent	Develops and applies more progressive concepts, methods and understanding. Plans and guides the work of others and executes progressive analyses
4	Advanced	Develops and applies complex concepts, methods and understanding. Effectively directs and leads a group and executes in-depth analyses
5	Superior	Has a comprehensive understanding of local government operations, critical in shaping strategic direction and change, develops and applies comprehensive concepts and methods
